

Evan Hopkins

Solution Master · Senior Systems Administrator · AI Integration Specialist

Montreal, Quebec, Canada | [LinkedIn](#) | [HackerRank](#) | [GitHub](#) | [Portfolio](#)

Professional Summary

Results-driven IT professional with 20+ years of hands-on experience across the full technology stack — from bare-metal infrastructure to cloud-native deployments and AI integration. Proven expertise in Linux and Windows administration, network engineering, cybersecurity, DevOps automation, VoIP, virtualization, and operational troubleshooting. Actively delivering AI-augmented workflows, intelligent monitoring, and root-cause-driven solution architecture.

Professional Experience

Senior IT Consultant · AI Solutions & Integration Specialist

Ville de Montréal

2011 – April 2026

- Designed and supported enterprise infrastructure across Linux, Unix, Solaris, BSD, Windows, and specialized platforms.
- Delivered LLM-assisted automation, intelligent monitoring pipelines, and AI-augmented operational workflows.
- Managed hypervisors and virtualization stacks including VMware ESXi/vSphere, Hyper-V, XenServer, KVM, QEMU, AWS Nitro, Google KVM, and Azure Hypervisor.
- Led security hardening, intrusion analysis, penetration testing, firewall design, and PCI DSS / compliance-oriented workflows.
- Built and maintained VoIP and server environments using SIP, Asterisk, Trixbox, Grandstream, Cisco, Freeswitch, DNS, DMZ, DHCP, VPN, Apache, and MySQL.

System Administrator / R&D; Engineer

Kontego Networks

July 2011 – October 2011

- Migrated public-facing servers to a secured DMZ model.
- Clustered PostgreSQL infrastructure and implemented NFS-bootable systems for rapid recovery.
- Worked on OpenStack/Xen clustering and Freeswitch telephony integration with Cisco AS5300.

System Analyst

Ajilon (Target Corp.)

July 2009 – July 2011

- Virtualized enterprise server infrastructure for a large-scale retail environment.
- Built automation utilities and debugged complex builds.
- Acted as assistant supervisor for escalations across server teams.

Senior Technical Consultant / Systems Administrator

EVO Canada

August 2009 – December 2009

- Sole IT manager for 125 staff and 40 remote agents.
- Implemented Cisco ASA, VPNs, WAN connectivity, and Kantech access-control systems.
- Delivered infrastructure planning, workflow management, and staff training.

Linux Administrator · NOC

Softvoyage

June 2008 – May 2009

- Provided 24/7 monitoring and incident response across production Linux infrastructure.

Technical Support Representative

CSC — Computer Sciences Corp.

April 2008 – June 2008

- Achieved a perfect score on the EATON assessment and led the team in resolution-to-time performance.
- Trained new hires and accelerated onboarding quality.

Director of Information Technology

Orderin

January 2005 – December 2007

- Scaled company infrastructure from 2 to 100+ employees.
- Managed Gentoo firewalls, OpenVPN, Asterisk / TRIKBOX, Grandstream VoIP deployments, SharePoint, BES, Nortel PBX, and SEO support.
- Served as sole IT manager and full-stack technical lead.

Senior Technician

Netchamp

July 2003 – January 2005

- Deployed 60 of 120 machines in a full network rollout and improved shell-replacement security hardening.

Core Expertise

- AI / LLM integration and intelligent workflow automation
- Linux, Unix, BSD, and Windows server administration
- Cybersecurity, penetration testing, and firewall architecture
- Virtualization and cloud platforms (VMware, Xen, KVM, AWS, Azure)
- Network engineering, DNS, DHCP, DMZ, VPN, and QoS
- VoIP, SIP, Asterisk, Freeswitch, Cisco, and Grandstream
- DevOps automation, scripting, deployment, and rollback workflows
- Database administration: MySQL Cluster, PostgreSQL, NFS clustering

Selected Skills

- Linux
- Windows Server
- FreeBSD
- System Administration
- Cloud Infrastructure
- Cisco Technologies
- Firewalls
- Cybersecurity
- VMware
- VirtualBox
- OpenStack
- Puppet
- Bash / Shell
- Python
- Nagios
- MySQL
- PostgreSQL
- Asterisk

- FreeSwitch
- Android Development

Education

Collège de Montréal

Computer Science, B.Tech · 1998 – 2002 · 98%

Completed coursework in robotics and programming.
